“ *To all of those who loved A'Lik, I just wanted to send a prayer and a hug. A'Lik was one of my babies at CCHS. He was never actually in my class, but he visited often, for a snack, for a smile, to tell a joke, to talk about a girl, and occasionally for some Biology help. I think about him daily and I know he is watching over all of us who loved him. I hope you all can smile when you think of him. He was such a bright light and an amazing friend to so many. We love you, A'Lik! My classroom snack closet will always be named for you!!* ”
