Tribute Wall

“ Charlie was my brother and I loved him more than he knew. He was 10 years older than me and went away to college when I was in the third grade. I always looked forward to him coming home from school but we never really communicated much from that point forward. I was always proud of the music he created and helped other create. RIP Charlie.

“ Charles III, Dan Brock, and I had some good times down in Baycliff TX at a family house dubbed "Saltair." Music definitely runs deep in the family. I shall miss them both now. "So long" but not "goodbye."
