“ *Weavers and Family, I am very sad to see the passing of Debbie (as her friends in the class of 72 called her). I remember many good memories which bring a smile to my heart when thinking of her and Johnny, and her parents. Started first grade together back in 1960 and life was simpler during those times., even had May Pole Dances at Southward Elementary. She will always be remembered by her classmates as nice and caring and just fun to be around.*
