

Jerry Gene Frazier

September 1, 1942 - January 6, 2025

Jerry Frazier, 82, passed away on January 6, 2025, in Lubbock, Texas.

With heavy hearts, we announce the passing of Jerry Gene Frazier, a beloved soul who journeyed from this world on January 6, 2025. Born in the humble town of Globe, Arizona, on September 1, 1942, Jerry embraced the beauty of life with a spirit as vibrant as the morning sun. He lived his days as a hunter of both the wild and life's simple joys, an outdoorsman in tune with nature's rhythms, and a masterful concrete mason whose hands shaped not only structures but also the very community he cherished.

Jerry's heart thrived amidst the wonders of the great outdoors, where he found solace and adventure. His passion for collecting and restoring tractors became a testament to his dedication to craftsmanship and history. Each machine he nurtured told tales of hard work and perseverance, much like the man himself, whose legacy will forever echo through the lives he touched in Artesia, New Mexico, and beyond.

As we bid farewell to Jerry Gene Frazier, let us remember him not in sadness, but in celebration of the beauty he brought to this world. May his spirit roam freely through the forests he loved and the fields he tended, forever at peace in the embrace of nature.

A service of remembrance will be held at a later date.

Jerry will be missed in a lot of ways and by a lot off people. I am with the South Plains Antique tractor Association. We are giving a donation to the FiberMax Center in Jerry's honor. Does any one know of any of his family that we can send an acknowledgment to.
