“ My uncle Jimmy was a very important person to me, as he helped raise me and my siblings throughout our childhood. He played Santa every Christmas, had a passion for photography/ videotaping any and everything.. he helped to preserve so many fond family memories. He also loved working out, music and puppetry. We made tons of home videos of puppet shows and with our action figures and stuffed animals. We also danced to Michael Jackson and Tejano music. My uncle Jimmy introduced me to my favorite artist of all time, Selena. He promised me that he would take me to her home town some day, which he never had gotten around to. I wasn't upset about it, but I did get emotional when I finally got to go to Corpus Christi a couple of years ago. I will forever cherish all of the memories of him as long as I live.
