“ *onya was my dearest friend for over 24 years. She was always there for me and I for her. She was one of those friends who knew where your heart was. We shared lots of laughs especially when we played Bunco with friends. I will miss her every day. I know you are resting easy in heaven. I'll see you there one day. I love you my friend. Tonya was an awesome nurse I got to work with for many years. I loved her Texas accent, her quirky giggle, and listening to her stories. She was a great friend to me and always gave me good advice. Some of our best times were listening to 80's rock bands we loved and dancing in the office . She will be missed. Too bad she was too stupid to get vaccinated. Prayers for her family. I worked with Tonya here at the Brady Hospital. She always had a smile and was always laughing. She will be missed so much by all of us here at the hospital. RIP my sweet friend, until we meet again.*

“ Tonya was a wonderful nurse and person. She was kind with a heart of gold. We worked together for many years and shared a lot of tears and laughter behind the pharmacy door. She was a good listener and friend. She will be missed greatly.

“ I am a student at Brady Middle school and I spent most of band in her class because I would always “need” a peppermint, so since we can’t have food in our mouth and play our instrument, I just stayed in her office until lunch!
